Dear Sir or Madame,

I am writing to ask the FDA to grant Docket #98P-0151/CPI. This petition is to prohibit the slaughter of "drowned" animals. Animals too sick to even stand should not be used for human food due to the increased risk of bacterial contamination and the evidence that some drowned cows may be afflicted with a form of BSE, or "mad cow disease."

Please protect the health of the U.S. public and grant this petition.

Thank you for your time and attention.

Sincerely,
Leena Isaac
